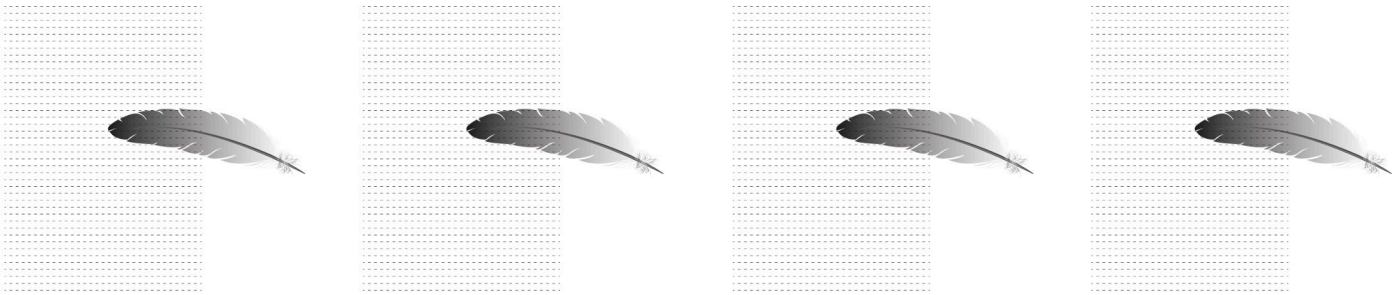
Samples: Feathers or Blood

Remove 4-6 feathers from the cloacal area. **DO NOT TOUCH THE QUILL of the feathers!** Attach the feather with tape without touching the quill or alternately place the feathers in a small plastic bag and staple the bag to this form.



Pour 2-3 drops of blood. Let dry before folding the form.

For eggshell, let it dry and send it in a sealed plastic bag or envelop, stapled to the registration form.
